

Advanced Scuba Diver Course: \$199.95

Part #: AOW-201

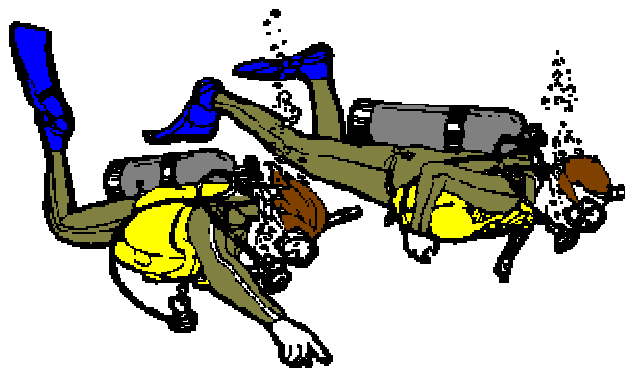

Designed for divers who just graduated from the Open Water program, the Advanced Scuba Diver Course is an excellent way to gain more experience diving while under the supervision of a scuba diving instructor. The new skills you will learn, such as deep diving, underwater navigation, night diving, boat diving and a whole list of other potential specialties, along with the different environments in which you will learn them, provides you with increased confidence, ability and perhaps a new dive buddy!

Prerequisites:

- Open Water Scuba Diver certification (PADI or NAUI)

Required Equipment: *(may be rented)*

- Mask, Fins, Snorkel
- Exposure suit (7mm wetsuit OR drysuit) w/ hood, boots and gloves
- BCD w/ low pressure inflator system
- Serviced, single hose regulator with alternate-air source device (octopus)
- Pressure gauge, depth gauge, and timing device (computers are encouraged)
- Compass
- Two Tanks
- Weight System
- Primary and secondary lights and cylume sticks
- Advanced open water text book
- Log book and dive table
- Dive knife
- Pencil and Underwater slate
- Surface whistle
- Safety Tube

The required dives that we will be doing include: Night dive, Deep dive, and a Navigation dive. The rest will be up to the class as to what you would like to do.

Students are encouraged to have their own SCUBA gear, but basic SCUBA rental package for course (wetsuit, BCD, regulator, cylinders, and weights) is available for \$70. A drysuit upgrade is available at an additional cost.

Upgrades: - *Drysuit certification upgrade for only \$150, including drysuit rental for course.*

- *Nitrox certification upgrade for only \$125.*
