

29TH ANNUAL

SCUBAFEST

SEMINARS - Saturday June 27th & Sunday June 28th

Seminars for the beginner and the experienced will be given by the top experts in their fields at this year's ScubaFest. All seminar participants will receive **extra drawing tickets** to increase your chances of winning some great prizes. Space and seating is very limited so arrive early for each seminar so you don't get locked out and miss out on those extra tickets for the drawings.

10:00am **Introduction to Nitrox Diving: Why Nitrox? Is it for me?**

Nitrox has now been in the diving industry for several decades and is becoming more popular every year. This seminar will give you the "Ins and Outs" of Nitrox, the costs and why it will replace air as your primary gas in the future. Don't miss this one!
Seminar by Greg Wolfkill, SDI/TDI Technical Expert

11:00am **You Won't Believe Your Eyes: Using the Heads Up Display Mask From Aeris**

You've heard it talked about for years and now here's your chance to get the lowdown on the **Aeris** CompuMask HUD direct from the horse's mouth so to speak. Come and sit down with Jon Hayes from Aeris and hear about the benefits of diving heads up. See how the Digital Optic System allows you to keep your eyes focused on the dive while presenting critical dive data including: current depth, elapsed dive time, cylinder pressure, and dive time remaining. Folks, this is the future of diving, and here's your chance to get in on the ground floor.
Seminar by Jon Hayes, Aeris Factory Representative

12:00pm **Beginning Underwater Photography: How to Get Started and Purchasing Your First Underwater Camera System**

Harry Truitt rarely goes in to the water without a camera in his hand and states that the really big underwater hunt is capturing the marvels of the undersea world. It's easy and the prices have dropped. Learn how to set up your first system and price it out.
Seminar by Mike Hooley, SeaLife Photo Representative/PADI Instructor

2:00pm **Choosing a Drysuit or "All About Drysuits"**

This seminar will show you how to get the most out of diving in northwest cold waters all year long. The best time to dive is in the fall and winter and you want to be properly insulated to see the things you won't see in the summer. Learn how to choose and build a drysuit system for you.
Seminar by Brian Corron, BARE Representative

3:00pm **Technical Diving – A New Adventure!**

Technical diving is the stuff that takes you to the adventures, movies are made of. Learn about this fascinating activity and how to get started. This will give you the experience that you dreamed about before you started scuba diving. Greg will start with step one and take you on a new adventure!
Seminar by Greg Wolfkill, SDI/TDI Technical Expert
